OUR COMMON STRUGGLE

The following news release was sent out over national news service to air the ideas and support of the Bisexual Center of San Francisco for the Anti-Discrimination Ordinance of Dade County. Drs. Rubenstein and Leve had these comments to make: San Francisco, June 2nd---"bisexual people as well as homosexuals are affected by anti-gay attacks like those occurring in Dade County, Florida, where an anti-discrimination ordinance protecting sexual minorities from being denied housing and jobs is being loudly denounced by Anita Bryant and her organization, Save Our Children Inc."

This expression of complete support for the continuance of the anti-discrimination ordinance came today from Dr. Maggi Rubenstein and Dr. Harriet Leve, founding directors of the Bisexual Center, San Francisco, reportedly the largest Bisexual community service organization in the country.

Drs. Rubenstein and Leve said they believe this is a civil rights issue for people who may not choose to conform to heterosexual standards.

"All people who support freedom of choice, and consensual human sexuality as basic human rights, need to understand the dangers of oppression against sexual minorities. If our country is to stand for equal rights and freedom for all, then this anti-discrimination ordinance must not be repealed," they said.

This news release was sent to the Chronicle, Examiner, Bay Guardian, and 300 other papers around the country. We are presently preparing a second, post-election statement that will go to local straight and gay newspapers. Expressing our committment and support of gay rights and human rights, this speaks directly to Bi people also.

The Gay Freedom Day Parade on June 26 will have come and gone by the time you receive this newsletter. We marched in solidarity with our gay brothers and sisters.

We announced at the June 13th, first mass meeting at the Gay Community Center, 330 Grove, that we understand the significance and the dangers to all people interested in sexual freedom, political freedom and religious freedom, implicit in the gay rights struggle and will fully participate.

There may be dark days ahead. I remember the hate and fear generated towards other minorities in years past and currently..the political witch hunts in the 50's, and see Salem rising again. We must stem this tide of repression. Anita Bryant and those of her point of view are wanting to deny basic human rights to anyone other than traditional Heterosexual people.

Gays are the new scapegoat, oppressed by the same mentality that oppresses women and the Equal Rights Amendment, Third World people and anyone else they fear. The scourge of Homophobia is one of the most dangerous signs of peoples' fears of their own feelings. In the name of religion, these dangerous bigots would like to deny the freedom of all free-thinking people in alternate lifestyles, including conscious Heterosexuals as well as Gays and Bi's. Bisexual people realize that

when Anita Bryant uses the Big Lie against gays, she is using it against us too. She is attacking our gay sides and our humanism. It is necessary to put aside individual differences and work together towards freedom of choice for all of us.

Politically, this patriarchal society has tried to keep down any minorities that threaten its power. Two of the biggest fears Heterosexual men and women have are the fear of intimacy and fear of same -sex feelings. Traditional politics on the left as well as on the right hate gays. Gays get thrown in jail in Cuba as well as in Spain. If this country is to survive, all people must have civil rights and liberties, women must be equal, and gays and Bi's must be free to have life, liberty and the pursuit of happiness.

General Meeting

The May 15 General Meeting began with reports from the various committees - Newsletter, Social, Research and the Speakers Bureau. Those attending then broke into discussion groups around the Newsletter and Office Space, Social Activities, and formation of a Mens' Rap Group.

The Mens' Rap Group had about eight men present who were going to have a first meeting and then decide on when and where additional ones would be held. The Social Activities group focused on the need for various summer events, and planned a picnic in Golden Gate Park for Memorial Day. Also scheduled (see other sections of this Newsletter) are camping trips, hot tub parties and potlucks. Perhaps the greatest amount of attention was given to the immediate need for office space. An intensive effort was organized for the month of June, and we hope that we can report on having found a home in the next issue of the Newsletter. Increased publicity for the BiCenter was also discussed. Among the ideas we decided to follow-up, were flyers which would be distributed in libraries, bookstores and meeting places. Additionally, the placement of small ads in the Pacific Sun and other Bay Area newspapers will be considered.

Anthology

We are compiling an anthology on bisexuality, please send in articles, poetry, drawings, etc., to Hogie Wyckoff c/o Bisexual Center P.O. box 26227, S.F. Ca. 94126

HE IS A MAN SO LIKE A WOMAN

for Stefen

He is a man
not bored by talk
of birds.

He is a man who knits
himself into blues
and purples.

He is a man who worships
colors,
who saw my rainbow bottles
slightly out of order and
moved only two,
like chess pieces,
to just the right spot.

He is a man who paints
murals, leaves them--
like children--
in the care of others, and cries
when they are taken
away.

He is a man who does
not think in geometrics,
who talks with his hands,
not his fists.

He is a man who doesn't
throw words at me
like lit matches,
just to watch me
burn.

He is a man so like a woman,
he makes me feel
neither safe,
nor afraid.

FOR THE STRAIGHT FOLKS WHO DON'T MIND GAYS, BUT WISH THEY WEREN'T SO BLATANT

you know, some people
got a lot of nerve.
sometimes i don't BELIEVE
the things i see and hear.

have you met the woman
who's shocked by 2 women kissing
and in the same breath
tells you that she's pregnant
BUT GAYS SHOULDN'T BE BLATANT.

or this straight couple
sits next to you in a movie
& you can't hear the dialogue
cause of the sound effects-
BUT GAYS SHOULDN'T BE BLATANT

and the woman in your office
spends your entire lunch hour,
talks about her new bikini drawers
& how her husband likes them.
BUT GAYS SHOULDN'T BE BLATANT

or the "hip" chick in your class
rattling a mile a minute
while you're getting stoned
in the john
about the camping trip she took
with her musician boyfriend.
BUT GAYS SHOULDN'T BE BLATANT.

or you go to an amusement park
& there's a tunnel of love
and pictures of straights
painted on the front
and grinning couples
coming in and out
BUT GAYS SHOULDN'T BE BLATANT.

you go in a public bathroom
and all over the walls
there's John loves Mary
Janice digs Richard,
Pepe loves Delores, etc.
BUT GAYS SHOULDN'T BE BLATANT.

fact is, BLATANT heterosexuals
are all over the place.
supermarkets, movies, at work,
in church, in books, on television
every day and night, every place-
even in gay bars.
& they want gay men and women
to go hide in the closets-

So to you straight folks
i say-Sure, i'll go
if you go too,
but i'm polite -
so - after you.

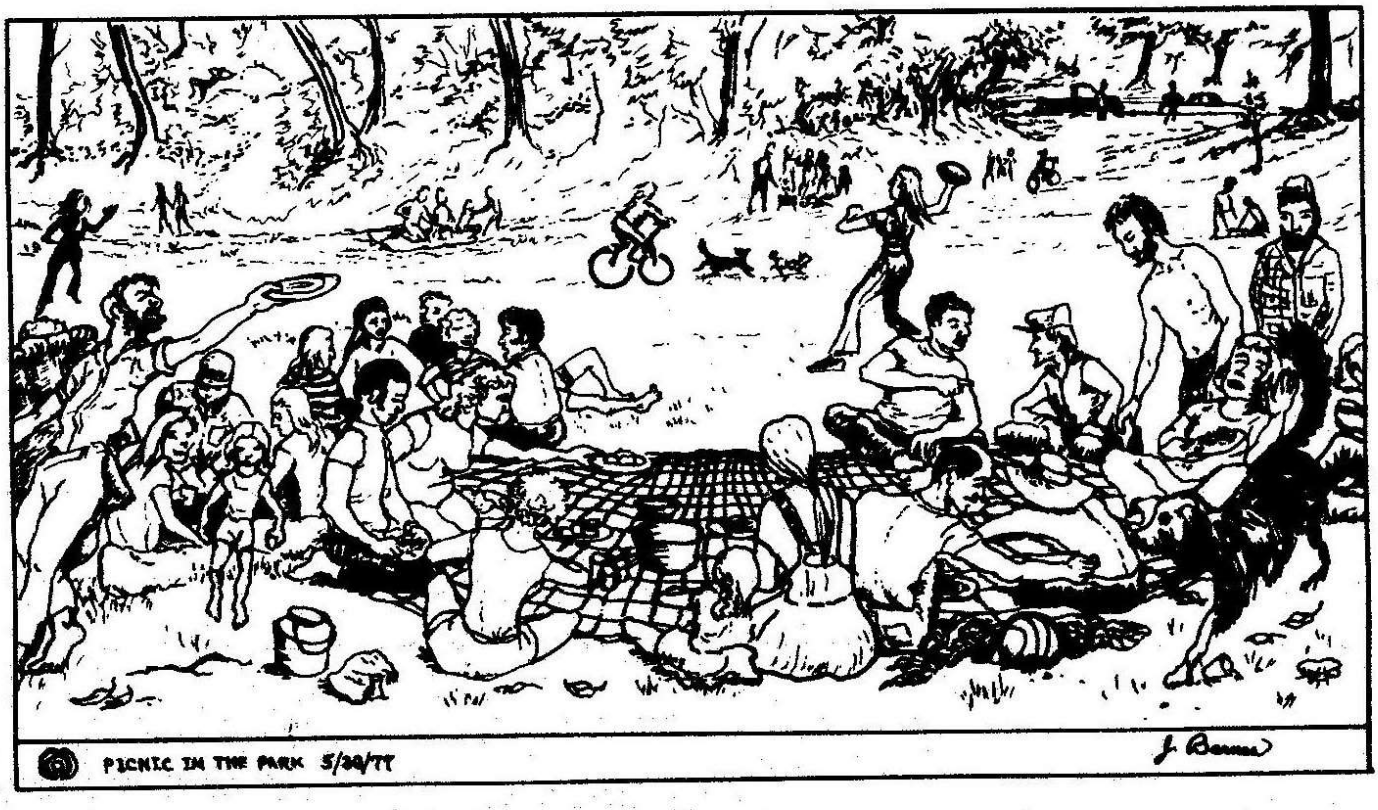
membership

There are presently 393 paid members of the Bisexual Center. We have $1625 in our treasury. Please let us know if you have any suggestions for increasing our membership and/or raising funds for the center.

We want to use our money mainly to rent office space, have a 24 hour a day phone line and pay printing costs for our newsletter.



The picnic that this drawing depicts was on Memorial Day in Golden Gate Park. The idea came up at the May 15th general meeting, which was after publication of the last newsletter. About 40 people showed up for a happy family day.

BISEXUALITY AND THE TRANSEXUAL

by Katherine Rosen

Quite often we think of ourselves as being people who enjoy being with other people, interacting within our distinct personalities yet comfortable with whatever may happen on an emotional and/or sexual level. Each of us identifies ourself as either a woman or as a man with physical characteristics that bear that identity out as being true. I cannot help but wonder though, how many of us have ever given thought to the possibility that there may be people who are known to society and the medical profession as "Transexuals", and who are also bi-sexual.

A bi-sexual transexual? Now that's a thought. But how could that be? The professionals, the men who write the texts on such subjects as transexuality say that a transexual (TS) is a person who, although born with the distinct genetic sex of either male or female, adopts the gender of the opposite sex. These authors go on to tell us, in such books as THE TRANSSEXUAL PHENOMENON by Harry Benjamin, M.D. and SEX AND GENDER by John Money, M.D., that these people feel the sexual preferences and attitudes of any heterosexual of the opposite sex, i.e. a male transsexual would act as a heterosexual female, and a female transexual would act as a heterosexual male. Although it has been noted in textbooks and articles on the subject, that some transexuals become gay after they have had re-assignment surgery, the possibility of a transexual exploring much less enjoying, bi-sexuality has never been approached. In some ways it is only natural that the possibility would never have been admitted to have existed. After all, if a male transexual was able to enjoy sex with a female, then why should he alter his body to that of a female? One of the most stressed point of transexuality is the hatred of the genitals with which the transexual was born. The professionals, those who have made the studies and have set the "standards" of what a transexual actually is, tell us that anyone who is able to freely enjoy sex with a member of the opposite physical sex cannot be a transexual. Surely, we are told, in the case of a male transexual, he must be merely a transvestite with homosexual tendencies if he is able to enjoy sex with a woman. Also, a male transexual who is able to enjoy sex with a man before having the surgery is labeled as being a homosexual. How I hate those labels! Heterosexual - homosexual - transexual - etc. What is wrong with just being HUMAN? In the case of a transexual, why can't a person who feels that they were born with the wrong genitals enjoy sharing emotions and sex with someone of the same sex that they desire to be, as well as with someone who is the same sex that they are?

From personal experience I can say that being a transexual is not a bowl of candy. It is not being able to just parade in public, and it is not just being able to see and feel the various prejudices and advantages of both sexes firsthand. What it is, is a chance to know and to be yourself - to be comfortable with your sexuality and more importantly with your personality. It's being told by therapists, friends, family peers, etc. of what you are supposed to be like and what you are not supposed to be like. Without being a very strong-willed person, it is a way of losing part of yourself by denying that any certain part exists.

Because I am able to feel good sexually about both sexes does not make me anything other than what I am - a woman, and a person, who is able to admit having feelings that are both male and female while at the same time allowing myself to enjoy life and sex to the fullest of my abilities. Being transexual has nothing to contribute or take away from my desire and ability to be close to people of either sex.

THREAT OF ANITA BRYANT
by Carl Rowan

This is the first well thought out article that we have seen from the straight press. Carl Rowan was a politician and is now a nationally syndicated journalist. His statements are more than factual reporting; he has put himself on the line for Human Rights. This article appeared in the San Francisco Examiner on June 16,1977

"WASHINGTON - Of all the appeals to bigotry still virulent in America, the one that shames me most is the newest: Anita Bryant's crusade against homosexuals.

She quotes her version of the Bible to tell us that homosexuals will "have no place in the Kingdom of God" and in doing so the lady gives religion a bad name.

Yes, as she roams the country, fresh from her triumph over the gays in Miami, the media are glued to her. Television pumps her into our homes at dinnertime, weeping because she feels homosexuals don't understand that she wants them to be "washed and clean".

Media-wise, Gerald L.K. Smith never had it so good, because she has become a fanatic, it will never occur to Anita Bryant that murderers have rights under the Eighth Amendment; peddlers of smut have rights under the First Amendment; drunks and drug addicts have rights under HEW guidelines - thus only a morbid, stone-age bigotry would embrace the notion that homosexuals do not have basic rights.

Anita Bryant exploits the deepest hopes and fears of parents. It has been drilled into human psyches for a millenium that God created only two types of people: males who lust for women, and females who crave men. Anything in between is suppossed to be a "freak", a "queer", a "fruit" and dozens of other meanly pejorative names.

There are an estimated 15 million homosexuals in the United States alone. Does Anita Bryant think God so fallible that all these gay Americans are just grotesque slips of His hand?

I've never argued with anyone about whether being homosexual is merely "sexual preference" or is a physical or emotional handicap, like being born with a cleft palate. All that matters to me is that the same Creator who put me on this planet also put a lot of homosexuals here, and I have no reason to believe that our Maker endowed me with any moral superiority.

Anita Bryant quotes the Bible to justify her villification of homosexuals. I can quote Leviticus to prove that people who eat pork are sinners. Several passages in the Old Testament can be used to justify the oppression of women. Racists quote the Bible as proof that black people were "cursed" by God to eternal inferiority. There is something in the Bible that every zealot can use to justify every prejudice imaginable.

For those who don't swallow the line that God hates homosexuals, Bryant has another emotional approach. She wants to keep gays out of jobs as teachers, librarians, etc., so as to protect our children from homosexual advances. None of us wants gays abusing our children sexually, emotionally or in any other way. We've passed laws against it. But are Bryant and her disciples aware of the terrible number of incidents in which heterosexual ("normal" people) molest children, introduce them to drugs, otherwise debase them?

It has become easy to attack homosexuals, to deprive them of basic rights, because they are now visible; boldly, they have walked out of the shadows. But the heterosexual rapists, molesters and other child defilers go on enjoying all the constitutional and legislative rights because they can hide in Anita Bryant's expansive world of self-righteous heterosexuals.

I watch and hear this woman, and I know that the greater threat to this society, which struggles toward justice for all is not the ordinary homosexual; it is the Anita Bryants who catch up so many gullible and unsophisticated Americans in their messianic madness."

childcare

Childcare is an important issue for our community. We wish we could have this service available at our functions. Right now, however, we can't. Our present large group meeting space is being made available to us free as a courtesy from the National Sex Forum, and is not suitable for childcare facilities. We are optimistic, however, that when we have our own facility, space for childcare will be available.

Dear Bi Center people,

For many years I've been relating to both women and men. I've felt unacceptable to both straight and gay people who say I must make a choice. I have-- I've chosen to be myself and be honest. For this reason I want to become a member of the Bi Center. It speaks to me in a voice I can hear. My relationship with myself and my intimate friendships with conscious women and men nourish me. I'm profoundly happy that a Bi community is there for me and others like me.

Dear People,

I was very happy that the Bisexual Center had a banner in the Gay Pride Parade. I think it is so important for us to show our solidarity and support for gay rights and concerns.

Folks,

Would like to thank you for your efforts at the Bi Center. As a gay male, I feel sometimes that I may be limiting myself by being exclusively homosexual and would like to explore being bi.

Dear Bi Center folks,

I am celibate, i.e., choose to refrain from being sexual with others, though I do relate to myself on occasion. My fantasies include both sexes. The Miami situation has enraged me. I cannot, nor must anybody who chooses to be sexual in an individual way, tolerate the hate messages, in the name of religion. God loves all of us.

Dear Bi Center,

I have been a member of the bi center since the beginning of the organization. I want to commend you on your good work in developing a visible and active bisexual community. I'm hoping that the bi center will join forces with the gay community in saving our human right to love whomever we choose.

Sincerely,

Dear friends,

I have been reading with anguish the story of Jean Julien, the lesbian mother who lost her children recently, simply because she chooses to relate to another woman.

I was in a similar situation several years ago. I am bisexual, but at the time I was getting a divorce I was seeing another woman. This was used in court against me. Fortunately I did keep my kids, mainly because my husband didn t want to raise them. If he had I might have lost them.

I want to say that bisexual mothers and lesbian mothers are both oppressed by our male dominated court system and need to support each other.

In Sisterhood,
Maria
